

## **Chesterfield Cultural Education Partnership**

### **Cultural Education Challenge**

The Chesterfield Cultural Education Partnership is one response to the Cultural Education Challenge in Chesterfield.

Launched in autumn 2015, the Cultural Education Challenge is a national call to arms, inviting arts, cultural and education sectors, public services and businesses to collaborate to strengthen cultural education activities for all children and young people. The purpose of the Challenge is to make sure every child has access to a high-quality cultural education which enables them to fulfil their unique potential.

The Chesterfield Cultural Education Partnership is a collaboration between cultural organisations, education settings, communities and businesses.

### **Community Growth**

The vision is to ensure all children and young people lead lives that are creative, healthy and rich in culture.

The aim is to turn Chesterfield from a 'land of deprivation' to a 'land of opportunity' so that all children and young people within Chesterfield's communities can make choices about their future without feeling underqualified, unprepared or trapped by their geography.

The partnership is ensuring:

- More opportunities for arts and cultural engagement inside of school
- Better quality provision of creative and place-based, heritage learning within the community
- Greater connectivity across core sectors working for and with children and young people in Chesterfield

## The Impact:

- Increased health, wellbeing and confidence
- Increased educational attainment
- Increased employability
- Sustained investment and collaboration for children, young people and their communities in Chesterfield
